#### Queer Burial Customs.

The attempt made by thieves to plunder the grave of a famous Parisian actress reminds a writer in the Journal des Debats that the ancient custom of depositing valuables in tombs still prevails in France. But it is not only jewels and the like that are buried with the dead.

A few years ago it was the custom in La Vendee to put a polished stone within reach of the corpse. This was supposed to guide the dead on their new journey. In the district of Dinan a piece of consecrated bread was used for the same purpose. The people of the Bordeaux district place in the coffin a sprig of myrtle blessed at Easter. This is considered to insure entry into paradise.

On the borders of Brittany and Pottou a little pebble is placed on the tongue of the deceased. Without this it is thought he might plead his cause before the great tribunal with such volubility as would insure his condemnation without appeal.

#### Women Students in Berlin.

The educational statistics of Berlin show that the number of women students is increasing there. The theological department alone shows a falling off, there being only one woman registered, while there were several last year. Besides the 258 women who attend lectures without matriculating, there are 13 women in the school of jurisprudence, 172 medical students and 659 in the department of philosophy. There are in all about 1,115 women students, of whom the majority are in the philology and history departments. The record shows that many of the important professors have student daughters and that these do not, as a rule, aim to perfect themselves in the branches taught by their fathers. Among the representatives of the official class is the daughter of Dr. Reickes, mayor of Berlin, who has matriculated in the department for the study of German.

#### Getting the Value of Coal.

The scientific method of buying coal, not by weight, but by thermal value, is likely to be adopted by the St. Paul city government. The "B. T. U." system, it is called, the initials standing for British thermal units. The school board estimates that it will save six per cent., or \$2,600, on 9,000 tons, the year's consumption. Many railroads are buying their coal, not for what it weighs, but for what it can do.—Springfield Republican.

#### The Way to Tell.

You can't tell how much money a man is making from the clothes he wears. You must get a look at his wife's.—Pittsburg News.

#### Kansas Woman Helpless.

Lawrence, Kas.—Mr. J. F. Stone, of that city, says, "My wife suffered for ten years from womanly troubles, during two years of which she was totally helpless. She was examined by many physicians, some of whom gave her up to die. Finally she began to take Cardui, and since then has greatly improved in health. The tonic, strengthening, and restorative effects of Cardui, the woman's tonic, on the womanly constitution, are the most valuable qualities of this popular medicine. Cardui acts specifically on the womanly constitution. Half a century of success proves that Cardui will do all that is claimed for it. Try it for your trouble."

#### Twenty Greatest Women.

Mrs. Enoch Raub, a Pittsburg club woman and philanthropic worker, has answered the question, "Who are the twenty greatest women in the world's history?" as follows: Queen Esther, Joan of Arc, Queen Elizabeth, Mme. de Staël, Harriet Beecher Stowe, George Sand, Elizabeth Barrett Browning, Florence Nightingale, George Eliot, Frances Willard, Clara Barton, Jenny Lind, Queen Victoria, Susan B. Anthony, Mrs. Mary Baker Eddy, Sara Bernhardt, Jane Addams, Ellen Key, Mme. Chaminade, Rosa Bonheur.

#### Calendars.

The finest line of samples ever seen in Hopkinsville, from the Collins Mfg. Co. of Philadelphia, can be seen at the Kentuckian office. Come in and see them. We can please you, no matter what style you want for 1913.

#### A Lead Pencil Danger.

In the United States the danger of putting pencils in the mouth has long been recognized, and in all the schools every precaution is taken to prevent the interchange of pencils as well as the moistening of them with the lips. A great many children and even their elders, who ought to know better, persist in putting pencils in their mouth regardless of the risk they run.
